

# How to Submit Your Assignment Work

For demonstration purposes, assume that you will save your project on the **C:\CMPT130\Assignment1\** folder.

Now we will first work on our assignment C++ program and then we will see how to submit our work. In order to work on our C++ program, perform the following steps:

- Step 1. Open Microsoft Visual C++ 2010 and create a new project.
- Step 2. Select the location of the project **C:\CMPT130\Assignment1\**
- Step 3. Name your project **Ass1**
- Step 4. Add a new item to your project, select C++ file, and name it **Ass1**
- Step 5. Work on your assignment and finish your work.

Next, we proceed to submit our work as follows

- Step 1. Click on the **Submission Link** on Moodle
- Step 2. Click on **Add submission** button
- Step 3. Drag your C++ program source code file located at **C:\CMPT130\Assignment1\Ass1\Ass1\Ass1.cpp** to the submission box and you are done.

If you don't know how to drag your file to the submission box shown, then you may alternatively submit as follows:

- Step 1. Click the submission icon as shown in the diagram below

CMPT 130 2022-02 Assignment 1: Submission Link

- Step 2. You will see a new window. Click **Browse** button
- Step 3. Select your C++ program source code file located at **C:\CMPT130\Assignment1\Ass1\Ass1\Ass1.cpp**
- Step 4. Click the **Open** button
- Step 5. Click the **Upload this file** button
- Step 6. Click the **Save changes** button

This completes the submission process.

## Updating (Modifying) Your Submission

You may also update (modify) your submission by first removing it and then re-submitting again. In order to re-submit again, do the following:

- Step 1. Click on the **Edit submission** button
- Step 2. Right click on the submitted file and click on the **Delete** button
- Step 3. Submit again by following the steps described above
